An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephanie Scruggs on 11/7/03.

The application has been amended as follows:

In claim 31 lines 5-6 delete :

"wherein Y is present in an amount from about 16 percent to about 35 percent by weight of the component; and"

cancel claim 32.

The following is an examiner's statement of reasons for allowance:

The terminal disclaimer removes the obviousness double patenting. The examiner amendments remove any possible lack of 112 support issues. These percentages are unnecessary to avoid the prior art. The "E/X/Y" is merely a structural representation of the terpolymer ionomers described at page 15 line 15 of spec and considered to be supported by that description.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
